Description of Newark Abbey

Newark Abbey, officially known as the Benedictine Abbey of Newark, in New Jersey, was founded by Benedictines from St. Vincent Archabbey of Latrobe, Pennsylvania in 1857. The first group of monks formed St. Mary's Priory and devoted their priestly service to the large number of German immigrants in Newark and by 1868, to establishing St. Benedict's College for young men.

This priory was elevated to the status of an abbey in 1884, bearing the name St. Mary's Abbey, under the patronage of the Immaculate Conception. This community later founded St. Anselm's Abbey, and College, in Manchester, New Hampshire, in 1889, and a house of theology and Delbarton School in Morristown, New Jersey, in the 1930's. The title St. Mary's Abbey was transferred to Morristown in 1956, and for a decade the monks in Newark were again the dependent St. Mary's Priory.

In 1968, the monks in Newark became an independent abbey again, identifying with a riot-torn city in taking the simple name of Newark Abbey. The community now includes twenty-six men, ranging in age from ninety to twenty-eight. All but four of the monks are ordained Roman Catholic priests, and several of the younger men are studying for the priesthood. Observing the Rule of St. Benedict, in its daily rituals, Newark Abbey belongs to the American Cassinese Federation of Benedictines, who trace their roots to the abbey at Monte Cassino established by St. Benedict in the 6th century.

Since 1868, the chief work of the monks in Newark has been the education of young men in St. Benedict's Preparatory School, originally St. Benedict's College. Following a hiatus in 1972-73, resulting from several difficult problems, St. Benedict's reopened in 1973 to more consciously address the needs of students from Newark for a quality college prep education. The school has grown to nearly 300 students, of varied racial and economic backgrounds, who come from Newark and thirty surrounding communities. It has all but completed a major \$800,000 expansion of its urban campus, within view of Newark's business district, with an outdoor recreational complex, begun two years ago.

Commenting on the history of the monks from this Abbey, and particularly on the remarkable events of the last twelve years, Abbot Melvin J. Valvano, O.S.B., has said: "This hundred-and-twenty-year old monastic family has been filled with men of serene and unusually tenacious faith. The monks and their co-workers these last twelve years are just like that; persons with courage and deep, deep faith that what God has started for people God will establish. He is doing that."

CONDITIONS OF SALE

COMMISSION

1. A buyer's commission of 10% of the hammer (selling) price will be added to the selling price, and becomes part of the total purchase price to be paid by the buyer.

BIDDING

2. All bids are per lot, as numbered in the catalogue. The right is reserved to withdraw any lot prior to sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the re-offering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserves the right to refuse any bid believed by him not to be made in good faith.

PAYMENT FOR PURCHASES

4. Payment for all lots shall be made as follows:
 - (a) **Floor bidders.** The name and address of the buyer of each lot shall be given to the auctioneer immediately following the sale of such lot. Payment of the whole purchase price, or part thereof, shall be made by the floor buyer in such manner as the auctioneer may determine.
 - (b) **Mail bidders.** A successful mail bidder will be notified of lots purchased and must remit before the lots are sent. Delivery to a successful mail bidder will be to the address on the bid sheet. A person known to the auctioneer, or who furnishes satisfactory references, may at the auctioneer's option have purchases forwarded for immediate payment. A minimum charge will be made for postage, insurance and handling. Proof, by the auctioneer, of receipt of a sending at the advised address shall constitute delivery.
5. Title shall not pass to the buyer until full payment has been received by the auctioneer.
6. **SUCCESSFUL BIDDERS AGREE TO PAY FOR LOTS AS SPECIFIED ABOVE AND NO CREDIT IS EXTENDED: A LATE PAYMENT CHARGE OF 1½% PER MONTH IS IMPOSED ON OVERDUE PAYMENTS.**

AUTHENTICITY

7. Each lot is sold as genuine, but when in the opinion of ANACS the lot is declared otherwise, the purchase price will be refunded in full; provided the lot is received by the auctioneer within a period of four weeks from the date of the auction. When an opinion is not expected within this four week period, the buyer will (a) submit the lot without delay to ANACS and (b) insure that advice, in writing, be received by the auctioneer within 25 days of the auction. Expenses incurred shall be borne by the purchaser, except where the lot is other than as described, when the auctioneer shall accept responsibility as follows: (a) the actual cost of the certificate is \$15.00 or less; or (b) the cost of the certificate up to 5% of the sale price, with a maximum of \$50.00. All such claims must be accompanied by a copy of the complete invoice of ANACS.

QUALITY

8. Any lot, description of which is incorrect, is returnable within fourteen (14) days of receipt and must be received by the auctioneer within four weeks from the date of the auction. All disputed lots must be returned intact in the condition received.
9. Lots are not returnable from purchasers who had the opportunity to examine before the auction.

SALES TAX

10. The New York State Sales Tax is payable by buyers liable to the tax.
11. The placing of a bid shall constitute acceptance of the foregoing conditions of sale.

BARBER QUARTERS

The following lots of Barber quarters were displayed for many years: consequently, many of them are toned on the obverses and not on the reverses.

262 1892 Beautiful olive-rainbow toned obverse, MS-65 and worth considerable Premium.

263 1893 Choice AU-55.

264 1894 Gorgeous proof, lovely iridescent toning on both sides, better than MS-65 with a hairline interruption of the proof surface on the eagles right wing. This is a real gem.

265 1895 Nicely toned on both sides, better than MS-60 save for a light scratch from above ear to "B", hardly noticeable under the toning.

265a 1896 BU 60 + ; small obv. spot at chin, otherwise nicely toned.

266 1897 Gorgeous mirror-like lustrous proof with slight haze about "ES OF" on the reverse. Only 731 of these were minted. This is better than usually seen and merits a grading of well above MS-60.

267 1898 Nice BU, MS-63, with a blush of deep obverse toning evident about the stars.

268 1899 Another BU, MS-63, and toned quite like the preceding lot.

269 1900 This coin could be the duplicate of the above, a lovely MS-63 with slight toning.

270 1901 MS-60 + , some slight toning on the reverse, lovely coin.

271 1902 A beautiful example of Mr. Barber's coin, at least an MS-63, well struck and interestingly toned.

272 1903 A more beautiful coin than most, steely-blue and goldish toning, and a true MS-65.

273 1904 PROOF, golden blush toning over mirror surfaces with smooth surfaces beneath the color, and a couple of minor carbon specks notable about the head. MS-65

274 1905 Deeply toned BU, well-struck and well preserved. MS-65.

- 275 1906 This bright beauty somehow escaped the toning of the rest of this set. A lively and lovely coin, just an MS-60.
- 276 1907 Exactly as the above, nice BU, MS-60.
- 277 1909 Last of the series, and bright and shiny, just as the above. MS-60.
- 278 1917 Type I, full head and so close to uncirculated. Also 1917 Type II, partial head, this a nice AU55.

FIVE GEM ISABELLA QUARTERS

Issued in 1893 for the Columbian World's Fair, our 1st Commemorative quarter.

- 279 **First-the best** Absolutely the most beautiful Isabella we have ever handled. Deeply toned with a rainbow iridescence showing through a deep steely-blue smooth and perfect obverse field, the reverse deep blue without the rainbow. Must command a heavy premium.

- 280 The second-so close to the above that it was a temptation to call this gem the best, the principal difference being the absence of the rainbow blush. This piece is a delicate satiny gold on both sides, virtually flawless, and should approximate or, even exceed the above in value.

- 281 Third-and almost an insult to call this gem third to any coin! Absolutely flawless, satiny surfaces under a light toning and so beautiful some may actually consider it the best of the lot.
- 282 Fourth Very similar to the first offering, although not so breathtakingly toned. Only a couple of minor field problems keep it from the class of the above three gems.
- 283 Last-another little gem. Uneven toning on the obverse at top and bottom is all that makes this the last in the lot, yet it would classify as an MS-65 or better in any sale.
